

INTEGRA®'s

INVADE PRESOAK SYSTEM

INTEGRA®
... in a word, **SIMPLE.**

FEATURES

INVADE Warewash Presoak System is designed to remove tough soils from flatware.

- Improves silverware appearance
- Concentrated formula
- Non-foaming
- Loosens soils quickly

INVADE meets **INTEGRA® Green™** criteria for environmentally preferable products.

INT07P1
Patent No. US 7,658,213

INTEGRA[®]'s INVADE PRESOAK SYSTEM

CHEMICALS

INVADE (9) is a high quality institutional utensil presoak detergent that removes tough soils from flatware and improves silverware appearance. The following steps are recommended to complete the **INVADE** Warewashing Presoak Program:

STEP 1 - Fill sink or bus tub with hot water. Add **INVADE** Warewashing Presoak.

STEP 2 - Place flatware in presoak solution.

STEP 3 - As flatware accumulates, place in flatware holders eating side up. Do not sort. Sorted utensils will nest and will not wash properly.

STEP 4 - Rinse flatware in flatware holders with pre-flush hose and run through regular dishmachine cycle.

STEP 5 - Shake vigorously at end of cycle to remove excess water and speed drying.

STEP 6 - Empty flatware, inspect for soil or tarnish and sort, handles up.
