**Areas of Use:** Pot and pan sinks in food service areas including fast food and full service restaurants, hospitals, school cafeterias, glass washing sinks.

Included in the **Triple Sink System** is a wall chart showing proper procedures, stickers for sinks, test strips, everything you need to meet local Health Department regulations.

The product usages shown are suggested guidelines. Water and soil conditions vary from one account to another, therefore specific product amounts must be determined by doing a study of soil levels and water conditions. Tip selection will vary according to the viscosity of the product, the water line pressure and the dispenser being used.
